A QUEER ACCIDENT.

Dreamed of a Collision and Jumped From His Engine.

Nelson Gunter, colored, of this city, is a fireman on the Seaboard Air Line. He is one of the most faithful and efficient employees of the Seaboard. Last Friday Nelson had an awful experience and sustained very painful injury to his head and face which will probably disfigure him for life.

Nelson is the fireman who made the famous run with engineer Hellig, when the great record was made between Weldon and Portsmouth, and which has not since been equalled.

Nelson was on his seat in the cab of his engine in the shunting yard here last Friday waiting for orders. While waiting he dozed off to sleep and it was not long before he was in dreamland. The old darkey dreamed that a train was heading down the track at full speed, and that an open switch made a collision with his engine inevitable. Nearer and nearer the mass of iron sped toward him in his vision. With the desperation of a frenzied man his instinct told him to jump. And he jumped.

Nelson fell out of the cab window and struck his head on a railroad tie. The poor darkey came near losing his life.—Raleigh Post.

GOING TO THE FRONT.

The Massachusetts and Pennsylvania Troops Passed Through Today.

The Sixth Pennsylvania, about 1,300 strong, on four special trains, passed through on the way to Charleston, S. C., in the early morning hours. At Charleston the regiment goes aboard transports to be hurried to Santiago.

Between eight and ten o'clock this morning three special troop trains carrying the Sixth Massachusetts from Camp Alger to Charleston passed through. The regiment was given its choice between remaining at Camp Alger as a guard and going to the front but elected to go to the front unanimously. Officers of the company said they did not know whether the regiment would be ordered to Santiago immediately or be held in Charleston to await the arrival of new rifles. In the regiment was one company of colored troops that was a soldierly looking body of men. All seemed anxious for a go at the Spaniards.

As Others See It.

A gentleman who spent the Fourth at Greensboro says the Battle Ground was a good place to get political news. He tells me there is much bad blood among the republicans in the fifth district, and it does look easy for democrats to carry everything there. Kitchen will have a walk-over, probably 3,000 majority, as none but Tom Settle seems to want the republican nomination. Judge Adams has made many leading republicans sore by pretending in some places to want to run for congress and in others to deny it and declare he wants to run for judge again. Adams is accused of allowing himself to be used by Tom Settle to defeat Col. Boyd's projects, such as the High Point postoffice, etc. Then again Bynum's friends say Adams is not toting fair, and that he had better look out or they will put a knife into him. And so goes the merry war in the revolutionary baillie.

Sigsbee Sails for Santiago.

New York, July 6.—The Eighth Regiment of Ohio volunteers arrived here this morning and immediately began to go aboard the auxiliary cruiser St. Paul. Captain Sigsbee expects to sail for Santiago at five o'clock this afternoon.

HOBSON IS FREE AT LAST.

He And His Crew Were Exchanged Today.

A SEVERE STORM IS RAGING

Off Santiago—Blanco Sends Another Report to His Government of a Mythical Repulse.

By Wire to THE TELEGRAM.

Washington, July 6.—The war department received a message this morning from Gen. Shafter. In the despatch Shafter states that he had just received a communication from Toral, Spanish commander in Santiago, agreeing to exchange Hobson and his men. The exchange will be made tomorrow morning. Toral on yesterday refused to exchange Hobson. Hobson and his men, when exchanged, will be brought to this country.

Gen. Shafter also reports that the bombardment of Santiago was again postponed and all is quiet. General Young, who is seriously ill, leaves today for Key West. Gen. Hawkins is wounded in the foot. The other officers are well.

HOBSON EXCHANGED.

Washington, July 6, 3 p. m.—A despatch has been received by Adjutant General Corbin from Santiago saying that Hobson and his crew have been exchanged.

STORM OFF SANTIAGO.

Washington, July 6.—General Greeley of the signal service has received advice from the corps at the front stating that a severe storm is raging off Santiago today making it impossible for our fleet and army to cooperate in an attack upon the city.

BLANCO AGAIN HAPPY.

Madrid, July 6.—An official despatch from Havana states that the Americans have made another attack on Tunas.

The enemy fired over a thousand projectiles damaging several houses and wounding five Spaniards.

The Spanish batteries replied to the fire forcing the Americans to withdraw.

Cable communication with Santiago has been restored.

The funeral services will be conducted at Grace M. P. church tomorrow morning at ten o'clock by Rev. J. F. McCulloch, editor of Our Church Record, assisted by other ministers of the city. Interment will be made in Green Hill cemetery.

GOOD CITIZEN GONE.

Rev. John L. Michaux Died About One O'clock This Morning.

For the last day or two it was apparent that Rev. John L. Michaux was sinking rapidly. He had been confined to his bed for several weeks with some stomach trouble, and on yesterday his friends began to realize that the end was near. This morning about one o'clock the summons came and his spirit went back to God who gave it.

Rev. Mr. Michaux was in his 74th year and was a highly esteemed and valued citizen. For years he was in the active ministry of the Methodist Protestant church but settled down in Greensboro during the war when communication was cut off and ran a paper in the interest of the M. P. church called the Watchman and Harbinger. He kept this up until the end of the war when communication was restored.

He afterwards founded and edited the Daily Workman in this city, and all along he was closely identified with the city's interest.

His wife died two or three years ago. He was the father of Dr. E. R. Michaux and John L. Michaux, of Goldsboro, Mrs. Lucy Moss, of Danville, and Miss Anna Michaux who was living with her father at the time of his death.

The Telegram tendered sympathy and condolence to the bereaved sons and daughters, and other relatives and friends of the deceased.

He leaves his friends and acquaintances behind with the universal verdict on their lips: He was a good man.

The funeral services will be conducted at Grace M. P. church tomorrow morning at ten o'clock by Rev. J. F. McCulloch, editor of Our Church Record, assisted by other ministers of the city. Interment will be made in Green Hill cemetery.

WORK OF A TORNADO.

Wrecks Buildings and Causes Great Loss of Life.

Hampton, N. H., July 5.—A tornado struck a section of Hampton beach at 3:15 o'clock today, causing immense damage to beach property and great loss of life.

Military organizations here have decided to telegraph congratulations to the troops in Santiago. Medals will be presented to them and also to Admiral Cervera and his sailors.

Committee to Decide.

Washington, July 6.—The resolution introduced in the senate thanking Commodore Schley for the Santiago victory, was referred to the committee on naval affairs. The committee will report to whom the credit of the victory is due.

IN KEY WEST HOSPITAL.

Key West, July 6.—It has been decided to place the three hundred and twenty wounded soldiers brought here last night on the Red Cross steamer Iroquois in the hospitals here instead of attempting to transport them to points further north. Most of them were transferred this morning.

CAMARA AT SUEZ.

Suez, July 6.—The fleet of Admiral Camara arrived here last night. Camara was promptly notified by the Egyptian government that he must leave port within twenty-four hours.

He was also informed that he would not be allowed to sail.

Committee to Decide.

Washington, July 6.—The resolution introduced in the senate thanking Commodore Schley for the Santiago victory, was referred to the committee on naval affairs. The committee will report to whom the credit of the victory is due.

YANKEE IN PORT.

New York, July 6.—The auxiliary cruiser Yankee arrived here this morning from Key West.

ADVISED TO SURRENDER.

The tornado touched the beach at a place about half a mile north of Whiting's Hotel, and cut a swath 100 yards wide in a westernly direction, moving in rotary shape until it passed out to sea. In a short time twenty cottages were torn down and several small hotels completely wrecked. The greatest loss of life and injury came with the demolition of the old skating rink Levitt, a single story structure of wood, 500 by 100 feet in size, here from 75 to 125 persons were seriously injured, an unknown number slightly wounded and seven persons killed.

A yacht owned by Capt. Frank Mudd, of this place, was sailing off the beach and was in the path of the storm. In it were nine persons and of those, five were drowned.

YOUNGARD COMING HOME.

Washington, July 6.—Gen. Shafter has informed the war department that the number of men sent home by the Cherokee and Iroquois was 625. The Iroquois has already arrived at Key West.

Memorial to Dr. Smith.

The reception tomorrow, Thursday evening, in the parlors of the First Presbyterian church promises to be a most pleasant occasion. Refreshments will be served by the ladies, and no charges of any kind are to be made.

Voluntary contributions may be put in the plates near the door for the purpose of furnishing a suite of rooms in the new Union and Theological Seminary buildings at Richmond, Va.

The rooms will be a memorial to the late Dr. J. Henry Smith who for about forty years was a member of the board of trustees. All are invited to be present.

A Modern Sleuth.

Early this morning Joe Stroud, colored, reported to Officer Scott that a white man had stolen a suit of clothes from him. Officer Scott was soon hot on the thief's trail and in fifteen minutes had him in jail. The man gave his name as Will Harris and said his home was in Salisbury. He was in possession of a wheel which he was unable to manage. He was out east of town learning to ride when arrested. Officer Scott expects to hear from the wheel later.

Not in Their Class.

"Why don't you come forward and help whip the enemy?" inquired the indignant patriot.

"Why," replied the pugilists in chorus, "we're waiting for Spain to get a reputation."—Washington Star.

And the race is not always to the swift.

Admiral Cervera's little pleasure excursion cost Spain only about \$13,000,000.

It was a sad day for Spain when Admiral Cervera's squadron got possession of that cork-screw.

Beside being superb in action Captain Robley D. Evans of the Iowa is forcible and picturesque in description.

Since Admiral Sampson's famous Fourth of July despatch the sale of sofforifics in Boston has fallen of 87 per cent.

The amount of protection that the German citizen in Spanish seaports seems to require just at present is marvellous.

If Watson can now bring Camara to bay we shall know whether French and German gunners are more to be feared than Spanish.

We trust that when the colored troops now at Fort Macdon reach Cuba they will not be required to wade ashore through the surf.

Captain Evans has had that opportunity of influencing spook linguistics for which he expressed such a keen desire some months ago.

The way that the governor of the Ladrones kicked and squalled when the Charleston picked him up by the scruff of the neck was a caution.

Uncle Samuel is not exactly pleased with the look in the corner of Aguilardo's eye. Hence the haste to send twelve thousand additional troops to Manila.

The Austrian cruiser that came up just as the Spanish ships started for the interior did not stand upon the order of her going. When next heard from she will be leaving the troubled waters of the Adriatic.

The last charge at Appomattox was made by a North Carolina brigade led by the intrepid General Grimes, and later when that grand man, Robert E. Lee, said for the last time, "stack arms," it was found that one-half of them were in the hands of North Carolinians.

This statement from an appreciative article in the Atlanta Constitution upon North Carolina contains information which is perhaps not familiar to all North Carolinians. It is gratifying to see a growing disposition on the part of other states to recognize the truly glorious record of the Old North State though, as a matter of fact, nobody has been so indifferent to North Carolina history as the average North Carolinian.

How Spanish sharpshooters managed to miss General Shafter even at three miles when they opened on his headquarters is a mystery to those acquainted with that redoubtable commander's avordupois.

A rapid overhauling of national ideas is going on these days. It was only recently that no less an authority than the London Engineer declared that the Cristobal Colon was "proof against every sort of shell."

Never an issue of this paper has failed to warn its readers of the designs of the powerful few upon the liberties of the many. We have rung a bell of warning, from time to time, as we have noted the progress they have made. —Progressive Farmer.

No, no, bell. A bell is not a wind instrument. Why not gave a see-saw croak of admonition?

The splendid courage in battle shown by Spanish sailors and soldiers may find a partial explanation in the genuine surprise prisoners express when they learn that they are to be fed instead of being shot. Incidentally this view of the question will make it tolerably difficult for Spaniards to secure enough prisoners for purposes of exchange.

Representatives in a military way of foreign countries, now at the front are complaining at the accommodations provided for them by the American government. They seem to think that the army ration should include absinthe frappe and that four or five thoroughly mounds a day should be provided for them. As guests their grumbling at the host's dinner is a charming exhibition of the culture and courtesy which Americans are taught lies six inches deep even on the waste places of the Old World.

What would the sturdy yeomen of North Carolina do without the organ of Dr. Joyful Laughter to light the intellectual darkness? None can barry an octopus like he, none can wield the truth with such supreme indifference to its safety. Witness this gem of imaginative description:

The source of common information—the newspapers—they [the octopoi] havé systematically brought under their control; and so thoroughly have they done their work that you might give an eye for every daily in North Carolina which they do not own, without serious injury to your sight.

And the Progressive Farmer maybe had a whole year for a dollar and a quarter!

The New York Sun, best of newspapers, but loudest-voiced of annexation shouters, shies this free chunk of wisdom at the senatorial imperialists:

White and company are traitors to our imperilled flag. The compliments of war can be exchanged with them after the fight is over, but until then Senator Davis and his followers must look upon their opponents as foes to be feared down without quarter.

Senatorial courtesy is often a vexation of spirit but it has served, and is now serving, the country too well to be disregarded with safety. More than once it has stood between a rancorous partisan majority and the welfare of the country and, withal, senators will be slow to part with it. It is better to print a few extra pages of the Congressional Record than to transform the senate into a one-man annex like the present house.

A Rude Awakening.

Hong Kong, July 4—When the Charleston shelled the port of Guama the governor, believing a salute was being fired, sent his courteous regrets, stating that he was unable to respond because he was without powder. When informed that he was a prisoner he indignantly protested and declared he was not aware that a state of war existed between Spain and the United States. An American resident was appointed provisional governor, and a small American garrison was installed.

Spain Painfully Impressed.

London, July 5—The Madrid correspondent of the Times says:

Dispatches received from American sources describing the destruction of Admiral Cervera's squadron, which the morning papers considered wild exaggerations and consequently held back, have now been published in special editions. They are generally regarded as substantially true and have produced a most painful impression among all classes, but there is perfect tranquility. I perceive no symptoms of dangerous popular excitement.

MRS. JOE PERSON,
Dear Madam—About the last of December there appeared something like heat on our baby's face. On the fourth Sunday in January his face and head were filled with running sores and he suffered severely. We were satisfied the dreadful disease was eczema. On the above mentioned day Rev. K. D. Holmes and Mr. Herbert E. Crews recommended to us in the highest terms Mrs. Joe Person's Remedy. With the great confidence we had in these gentlemen we proceeded at once to use it. Two months later, the fourth Sunday in March, Rev. Mr. Holmes saw the same child and could scarcely recognize him. The child is seven months old, his face is well, and there are only slight signs of the disease about his head. He is the picture of health and is hearty and strong. We gladly recommend Mrs. Joe Person's Remedy for all forms of eczema, and think that it is the best blood purifier on the market. With best wishes I am, Your friend, D. N. HUNT.

BRIEF LOCAL MATTERS.

There is a change in Hudson's advertisement today.

Fruit is becoming plentiful now and it is of good quality.

Prof. Whitsett, of Whitsett Institute, returned home today.

Lindau advertises a fresh lot of fancy cakes and crackers today.

On account of rain the lawn party at Mrs. Ballard's will be postponed until Friday night.

J. H. Medearis and family left today for a visit to Mr. Medearis' father, at Belvoir's Creek.

Mrs. T. D. Jones and two sons, of Durham, passed through today enroute to Danville, Va.

Flies and loafers must severely try the patience of grocerymen in hot and damp weather like this.

The city water these days is made up of three parts mud to one of water. Is mud cheaper than water?

That hill at the junction of South Elm and Lee streets still stands as a monument to broken promises.

Remember the old public well on E. Market street, and don't go too near it when it is dark. You are liable to fall into it.

The superior news service of The Telegram continues to interest the people and new subscribers are being added daily.

An excursion train from Mt. Airy to Wilmington over the C. F. & Y. W. railroad passed here about eleven o'clock today.

Dr. and Mrs. Chas. D. McIver left today at noon for Washington, where they will attend the meeting of the National Educational Association.

If the officers will keep a sharp lookout they may get an opportunity of enforcing the recent law in regard to trolley and bus drivers on the sidewalks.

The capacity of the various pipes under our streets for bursting is simply wonderful. Hardly a day passes that earthworks are not thrown up somewhere.

Mrs. S. E. Allen and little son S. E. Allen, Jr., of Winston, are in the city this afternoon enroute home from a visit to Concord. They are stopping at The Allen.

Attention is called to the ads concerning sale of city lots tomorrow by Jess F. Stephens, administrator. The sale takes place at public auction on the premises tomorrow morning at ten o'clock.

Dr. Dred Peacock left at noon today to attend the Durham district conference which convenes at Concord church near Roxboro. Dr. Peacock will deliver an address on Education before the conference.

E. L. Armentrout and W. C. Bain went to Graham this morning to finish the inside work on the new Presbyterian church there. The inside will be finished in hardwood. Mr. Bain has the contract.

Mrs. N. M. Patterson, who has been here for sometime with her sister, Mrs. Emma Peters, who has been quite sick, returned to her home in Liberty today. We are pleased to state that Mrs. Peters' condition is much improved.

The mosquito incubator on South Elm street at the C. F. & Y. V. crossing is still allowed to remain. Again we ask the question: If such a condition is a nuisance and the sanitary officer has authority to abate it in one part of the city by what law is another part of the city exempt?

In today's Telegram will be found a notice of Whitsett Institute. If you are interested in schools you should send for a copy of the elegant catalogue now being mailed. This school's remarkable growth attests its merit. We learn that the outlook for the coming year is very fine, and applications from students are being received daily.

In addition to those now conducting liquor saloons in this city the county commissioners yesterday granted license to C. H. Coble to sell the "reeking red" in the Fields building, corner Fayetteville and South Elm streets. If the sidewalk is not repaired in front of the building before the business is opened the coroner may be called upon to hold an inquest there pretty soon.

Measures and Men. The average beer-drinker doesn't care who pays the tax, but he wants no reduction of the glass. With him it's measures, not men.

A Missouri man filed as an answer to his wife's suit for divorce an agreement signed by both "to disband."

Vommy-Paw, what does "better half" mean?

Mr. Figg—It is a polite way of saying "the whole thing."—Indianapolis Journal.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrane, Providence, R. I. He says:

"For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrated me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. E. Holton.

We cordially invite you to call and get our prices before buying elsewhere.

When we buy a bargain we give our customers the benefit. We have a line of calicoes at 3 and 5 cents; good bleaching, yard wide, 5 cents; AA sheeting 4 cents, also a nice line of Ginghams at 4 and 5 cents. Also a line of sample handkerchiefs, corsets, hose and other things too numerous to mention, at half price.

We Have Been Waiting

until we could fit up our sample room before we invited you to call and inspect our new line of mantels, grates tiles, bathtubs, gas fixtures, etc. It seems, though, that if we wait until everything is ready we shall have to wait forever, as we are constantly getting in new goods, and adding to the completeness and attractiveness of this line. We are now prepared, however, to show you a complete assortment of these goods, and to offer them to you at the lowest prices that have ever been known in Greensboro. You will find our sample room an interesting place to inspect, even though you may not wish to buy. All are cordially invited to call and see our display, which is on the second floor, front, of our store.
